Role Play & Mods

Role Play

This server is made with the intent of light RP. You can RP if you wish to but it isn’t a requirement. If you interact with a person/company who wishes to RP then feel free to do so back but if you aren’t comfortable with it then you don’t have too. An RP backstory is not required for character creation but is advised. You must have a short RP backstory if you wish to set up a company.

Mods

The Kingdom’s End Server utilises the following mods to provide cosmetics to the server. Please note that if any mod causes server issues, it may be removed without warning, and this may cause items or structures from that mod to disappear. If a mod is found to be causing problems and is removed, the Arbiters will do their best to help you recover any lost items.

- Rustic Buildings
- Eco's RP Decor (Continued)
